

Exporting from **KAVO / TXSTUDIO / INVIVO5**

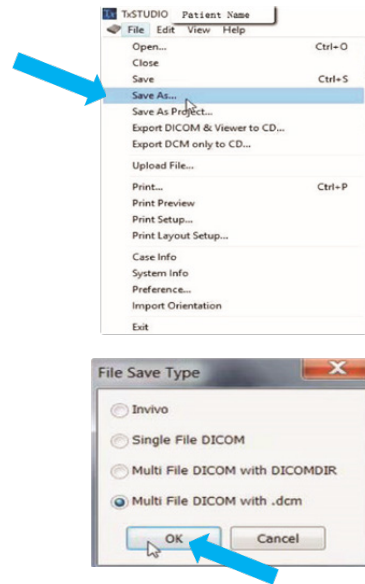

STEP 1.

Right click on your desktop, select **NEW** and click on **FOLDER**. Rename the folder to match the patient's name.

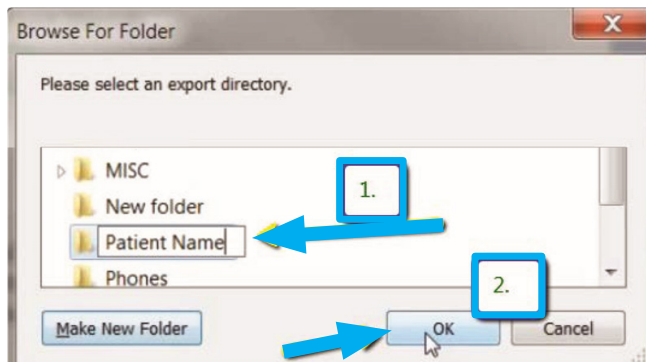

STEP 2.

Open your image, and click on **FILE, SAVE AS, MULTI FILE DICOM** with .dcm. Click ok.

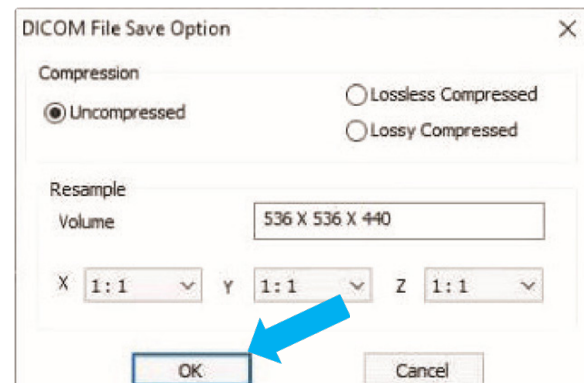

STEP 3.

Select the folder you created on your desktop in Step 1 and click **OK**.

STEP 4.

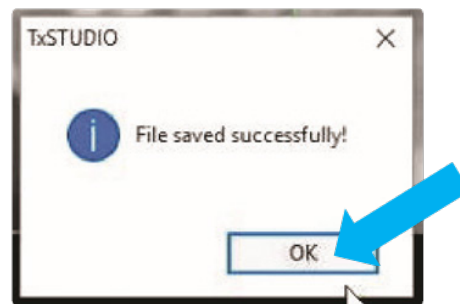

Make sure that **UNCOMPRESSED** is selected and click **OK**.

Exporting from KAVO / TXSTUDIO / INVIVO5

STEP 5.

The files will begin exporting.
Click **OK** when finished.

STEP 6.

- After the DICOM file exports and saves, open the folder you created on your desktop in Step 1 in order to verify that the DICOM files were all exported.
- There should be several hundred files since these represent the slices of the CBCT scan.
- Ensure that there are no files with any extension other than “.dcm”. If other files are present, delete them.

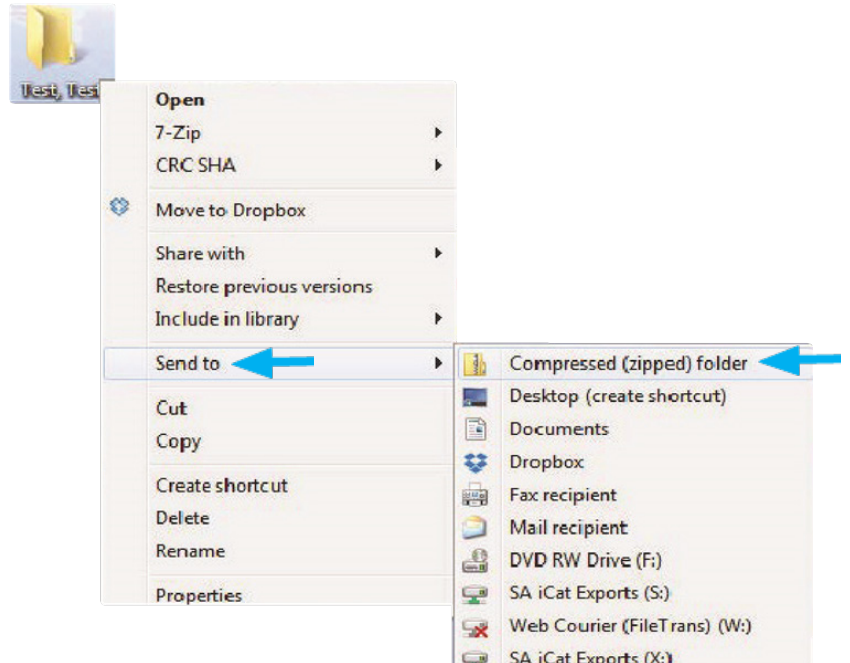

Exporting from KAVO / TXSTUDIO / INVIVO5

STEP 7.

Right click on the patient folder you created on the desktop, and select **SEND TO** and **COMPRESSED (ZIPPED) FOLDER**. A duplicate folder will be made with either a zipper or a blue “z.”

NOTE: If following a Dual Scan Protocol, zip scans individually and label accordingly (i.e., “Patient Scan” and “Denture Scan”).

STEP 8.

You are now ready to upload your file to nsequence.com.

- Hover over **SEND A CASE** in the menu.
- Select **UPLOAD FILES**.

Exporting from **KAVO / TXSTUDIO / INVIVO5**

STEP 9.

Select **CLICK TO ADD FILES** or Drag & Drop the file into the boxed area.

Send a Case > Upload Files

Prepare your data for upload

Prior to sending us your case, please prepare your data for upload. For enhanced security, we have limited the file formats that we accept.

Please use the following guidelines to ensure prompt receipt of your files.

1. Maximum total file size = 2GB
2. Maximum of 10 files can be uploaded at a time and upload time is dependent on your internet upload speed.
3. If sending large volumes of data, please ZIP all files prior to sending.
4. Supported file extensions:
ZIP, TXT, JSON, XML, 3ML, STL, STP, DCM, PLY, OBJ, DXF, JPG, JPEG, GIF, PNG, TIFF, SVG, WEBP, ICO, DICOM, UDX, PDF, PTS, HTM, HTML, INVWU, WUDAT, BMP, SERIE, DAT
- ***Uploading unsupported file types, even when included in a ZIP file, will result in a failed upload attempt.**
5. Be sure to keep the page open until all files have been uploaded.
- ***Closing the page before the upload is completed will result in a failed upload attempt.**

We do everything we can to make sure you can upload your files as quickly as possible. If you're experiencing a slow upload time, it may be due to exceptionally large files as well as your Internet Service Provider (ISP) or network connection. Upload progress will not be shown during upload if you are using the Microsoft Edge browser.

Select Files To Upload

Drag & Drop or Click to Add Files 

STEP 10.

Complete the form and click **UPLOAD FILES**. The upload process may take a few minutes.
