

nSequence[®] Lite

A Streamlined Option for Your Full Arch Restorations

When immediate load may not be an option, nSequence Lite brings an easier, faster and more predictable solution.

- ✓ Enhances surgical accuracy while ensuring proper bone reduction for a definitive prosthesis.
- ✓ Reduces restorative appointments for the definitive prosthesis and provides a streamlined workflow.
- ✓ The Clear Duplicate Denture functions as an all-in-one verification jig, bite block, set-up/try-in and final impression.
- ✓ Opens the door for many overdenture options, including Locators, Hader Bar[®], Conus, etc., and for Hybrid definitive restorations.

ALL YOU NEED ARE 4 COMPONENTS:
